Summary

As a Computer Science senior at Rensselaer Polytechnic Institute, I combine expertise in programming, algorithms, and system design with a strong proficiency in teamwork and collaboration. My education has honed my problem-solving skills and adaptability in team-oriented tech environments. Eager to apply my skills in real-world settings, I am prepared to innovative solutions and collaborate effectively in the computing field.

Education

Rensselaer Polytechnic Institute | Troy
Computer Science and Information Technology | 05/2026

- School of Sciences: Dual Major in Computer Science and Information Technology with a GPA of 3.2
- Relevant Course Work
  - **Computer Science:** Database Systems, Hardware Security, Network Programming
